WCCTV Mobile Surveillance

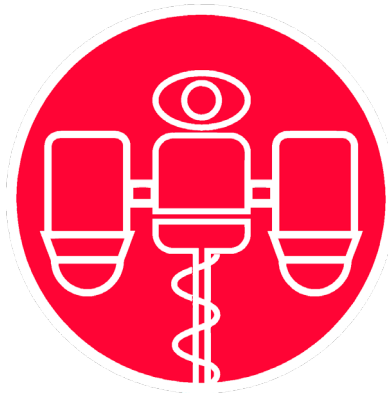

Rapid deployment video surveillance

Wireless CCTV LLC (WCCTV) is the USA's leading supplier of mobile video surveillance solutions.

WCCTV's products include rapid-deployment pole-mounted security cameras, solar-powered surveillance trailers, body cams and time lapse video filming and production - all optimized for secure 4G LTE video transmission.

Every WCCTV product can be backed by a managed service that includes installation, video monitoring, LTE connectivity packages, alarm monitoring, ongoing US-based technical support and training for the lifetime of the product.

WCCTV - Pole and No Power

The WCCTV 4G Solar Mini Dome is an autonomously powered mobile video surveillance system fitted with an ultra-slim, high performance solar panel with full battery back up capability. Specifically designed for monitoring and surveillance applications at off-grid and remote locations where power and mounting infrastructure are not available.

Features and Benefits

- Solar autonomy pack for pole camera
- Use existing physical infrastructure
- Plug and play install.
- Pole or building mount
- Use as UPS for temp power scenarios
- Renewable energy source
- Low voltage alerts
- Smart Switch diagnostics hardware

WCCTV - Pole and Power

WCCTV's rapid deployment pole cameras are specifically designed to deliver live and recorded high definition video images via 4G LTE networks.

As all-in-one portable security cameras, they combine a PTZ camera, 4TB of edge recording and integrated LTE transmission technology into a compact, lightweight unit.

Features and Benefits

- Rapid deployment pole camera
- Specifically designed for cell networks
- 4G LTE, Wi-Fi & IP connectivity
- High speed infrared PTZ
- 60 days onboard recording
- Edge analytics for intrusion detection
- Power efficient
- Fix - Power - Walk Away
- Full remote configuration
- Autonomous power options
- Free, unlicensed viewing software

WCCTV - No Pole and No Power

The WCCTV Mini Dome Solar Trailer is an autonomously-powered mobile video surveillance trailer that can be rapidly deployed at practically any location within minutes, providing security for remote sites, short-term events or off-grid locations.

Features and Benefits

- Fully autonomous surveillance trailer
- Specifically designed for WCCTV Pole Camera
- 1 - 4 camera configuration
- IR, Thermal and Time Lapse Video options
- 15 day battery autonomy
- Rapid recharge via solar array
- Audio challenge and blue light siren
- Remote diagnostics and service
- Low voltage alerts
- 6 minute install
- 24/7/365 operation

WCCTV Target Sectors

WCCTV mobile surveillance cameras are ideal for:

- Critical National Infrastructure
- Job Site Security and Project Management
- Energy, Oil and Gas
- Airports
- Department of Transport Projects
- Parking Lots Safety and Security
- Property and Facilities Management
- Covid 19 'Dark Sites'
- Retail Customer and Employee Security
- Vehicle Asset Protection
- Public Safety
- Outdoor Events
- Parks and Trails
- Recreational areas
- Education and Healthcare
- Campus Security
- Parking Lot Security Safety

WCCTV Case Studies

Parking Lot Protection

- Protection of 'No Dealership' vehicle lot assets
- Thermal image intrusion detection for long boundary
- IR PTZ for remote site review
- Blue light audio siren deterrent
- Surveillance trailer for power and infrastructure autonomy
- Live video alerts to remote monitoring station
- Works in conjunction with mobile patrol
- Optimize cost efficiency of Guard + Technology + Alarms
- Perfect solution for large lot intrusion detection

Job Site Security

- Deployed on major infrastructure bridge project
- Providing 3 in 1 capability
- Intrusion detection for security
- Remote access for project management requirements
- 4K Time Lapse Video for public updates
- Reduced security manpower costs
- Reduced unnecessary site visits (critical during Covid Lockdown)
- Provides marketable Time Lapse video for regular public updates

Retail Security

- Solution for 1 million sq ft shopping center
- Provides mobile customer & vendor security
- Out of hours protection
- Rapid deployment surveillance
- Move to new locations as requirements change
- Remote viewing of live feed
- Crowd management
- Increased deterrent
- Safer working environment
- Parking lot surveillance to prevent vehicle theft, increase public safety and reduce liability

Energy, Oil and Gas

- HD video evidence capture
- Review onsite incidents and investigate root cause
- Video download packaging for dispute resolution
- Intrusion detection for security
- Remote access for project management requirements
- 4K Time Lapse Video for public updates
- Reduced unnecessary site visits (critical during Covid Lockdown)

WCCTV Partnership Opportunities

WCCTV operates a global reseller partnership, and the Company is always happy to hear from potential resellers in appropriate sectors.

Ideally, we are looking to partner with established security services or equipment providers who can facilitate direct sales and provide ongoing technical support in-territory.

If you want to be a part of the continued WCCTV success story, please contact a representative on +1 877 805-9475 or email sales@wcctv.com.

Benefits of Partnering with WCCTV

WCCTV provides its partners with access to unique products, comprehensive training and technical support to enable them to maximize sales within their territory, region or market sector. Benefits of becoming a WCCTV partner include:

- VAR Pricing Model
- Hardware and Software Training
- Sales Training and Support
- Access to Customized Marketing Collateral
- Dedicated Account Manager
- Exhibition Support

If you are interested in becoming a WCCTV partner in your territory, please get in touch today on 877 805-9475 or email sales@wcctv.com

To find out more about WCCTV's Mobile Surveillance Units or to arrange a demonstration please contact our office:
